What Statewide Vaccine Equity Goals mean

Every county in California is assigned to a tier based on its positivity rate, adjusted case rate, health equity metric, and the State’s vaccine equity metric. Counties must remain in a tier for at least three weeks before moving to a less restrictive tier. Counties must meet the next tier’s criteria for two consecutive weeks to move to a less restrictive tier. If a county’s metrics worsen for two consecutive weeks, it will be assigned a more restrictive tier.

In accordance with the State’s updated Blueprint for a Safer Economy framework, Los Angeles County qualified for the “Minimal,” or yellow tier on May 4, 2021. The tier’s permitted openings and modifications are in effect as of May 6, 2021.

**In the table (right) you will see the breakdown of the following:**

- **New COVID-19 positive cases per 100K**
  - 7-Day average new positive cases per 100K residents

- **Adjusted case rate for tier assignment**
  - An adjustment factor for counties that are testing above or below the state average. This adjusted rate is used for “new case” metric rather than the raw case rate.

- **Positivity Rate**
  - 7-day average of positive lab-confirmed COVID-19 cases divided by total tests

- **Health Equity Metric**
  - The test positivity rate in the Lowest Healthy Places Index Quartile Census Tracts.

COVID-19 DATA SUMMARY

United States Updates
Cases have begun to gradually decrease again. The top five states with the highest numbers of total cases are:

**California**: 3.8M cases (9,516.4 per 100K)
62.6K deaths (158.2 per 100K)

**Texas**: 2.9M cases (10,190.2 per 100K)
50.8K deaths (177.1 per 100K)

**Florida**: 2.3M cases (10,716.8 per 100K)
35.9K deaths (168.7 per 100K)

**New York**: 2.1M cases (10,642.3 per 100K)
52.9K deaths (270.5 per 100K)

**Illinois**: 1.4M cases (10,686.4 per 100K)
24.7K deaths (193.6 per 100K)

Pennsylvania, Georgia, Ohio, New Jersey, and North Carolina follow to comprise the 10 states reporting the highest numbers of total cases.

California ranks ...
#1 in Cumulative Cases
#36 in Cases per 100K

#1 in Cumulative Deaths
#30 in Deaths per 100K

Source: Johns Hopkins University and NY Times
Cases have begun to gradually decrease again. The top five states with the highest numbers of new cases are:

**Florida:** +4.1K cases
47 additional deaths

**Pennsylvania:** +2.6K cases
57 additional deaths

**Michigan:** +2.4K cases
118 additional deaths

**New York:** +2.2K cases
41 additional deaths

**Texas:** +2.1K cases
55 additional deaths

Illinois, Colorado, North Carolina, Washington, and Ohio follow to comprise the 10 states reporting the highest numbers of new cases.

Source: Johns Hopkins University and NY Times
Top five counties reporting the highest numbers of per capita (per 100K) cases:

**Miami-Dade, Florida: 18,146 cases** per 100K
(493,007 total cases)

**Yuma, Arizona: 17,381 cases** per 100K
(37,159 total cases)

**Minnehaha, South Dakota (Sioux Falls): 16,359 cases** per 100K
(31,594 total cases)

**Whitfield, Georgia: 16,125 cases** per 100K
(16,871 total cases)

**El Paso, Texas: 16,113 cases** per 100K
(135,229 total cases)

**Los Angeles, California: 12,316 cases** per 100K
(1,236,456 total cases)

*Los Angeles County ranks #66 out of 584 counties with 100K+*
Top five counties reporting the highest numbers of per capita (per 100K) deaths:

**Navajo, Arizona: 482.3 deaths per 100K** (535 total deaths)

**Bronx, New York: 460.1 deaths per 100K** (6,525 total deaths)

**Queens, New York: 436.3 deaths per 100K** (9,834 total deaths)

**Kings, New York: 402.2 deaths per 100K** (10,296 total deaths)

**Imperial, California: 400.6 deaths per 100K** (726 total deaths)

**Los Angeles, California: 239.7 deaths per 100K** (24,067 total deaths)

*Los Angeles County ranks #77 out of 584 counties with 100K+*
COVID-19 • LOS ANGELES

Key Indicators
Cases, Deaths, Testing, and Hospitalizations
The past seven days have seen an average daily increase of 322 new cases.

The past seven days have seen an average daily increase of 15 new deaths.
KEY TAKEAWAYS

LA County accounts for **33.8%** of cases in CA with an average of **322** new cases reported from 5/08 to 5/14 (**7.7%** increase).

CUMULATIVE CASES

COVID-19 • LOS ANGELES CITY OVERVIEW

Economic Analysis
Key Takeaways:

- 9,586 new claims from 4/25/21-5/1/21, including Pandemic Unemployment Assistance (PUA), a 24.8% drop versus last week.

- March’s preliminary unemployment (seasonally-adjusted) is estimated at 11.3% for LA County, lower than February’s revised numbers (11.5%).

- 1,506,607 total claims for Unemployment Insurance (UI) and Pandemic Unemployment Assistance (PUA) in 2020/21.

Note: A major PUA backlog was found and reported over the two-week period from 8/23-9/5.

COVID-19 • CITY OF LOS ANGELES

Actions This Month
Mayor Garcetti announced that City-run sites are prepared to administer over 260,000 vaccine doses this week, the largest supply ever offered by the City. To make vaccinations more accessible and convenient for Angelenos, the City will expand operations from five to six days this week, offer more appointment-free options, add a drive-through at Cal State L.A., and open a new night clinic in South L.A.

The City issued a new Safer L.A. order to reflect Los Angeles County’s move into the State’s “minimal risk” (yellow) tier.

The City’s Mobile Outreach for Vaccine Equity (MOVE) program surpassed 100,000 doses administered across Los Angeles this week, reaching a major milestone in the effort to deliver life-saving vaccines directly to hard-hit communities.

COVID-19 vaccines are now available to all L.A. County residents ages 12 years and older at all City-run vaccination sites.

All City Actions to date can be found in this spreadsheet.
