What **Statewide Vaccine Equity Goals** mean

Every county in California is assigned to a tier based on its positivity rate, adjusted case rate, health equity metric, and the State's vaccine equity metric. Counties must remain in a tier for at least three weeks before moving to a less restrictive tier. Counties must meet the next tier’s criteria for two consecutive weeks to move to a less restrictive tier. If a county’s metrics worsen for two consecutive weeks, it will be assigned a more restrictive tier.

In accordance with the State’s updated Blueprint for a Safer Economy framework, Los Angeles County qualified for the “Minimal,” or yellow tier on May 4, 2021. The tier’s permitted openings and modifications went into effect as of May 6, 2021.

**In the table (right) you will see the breakdown of the following:**

**New COVID-19 positive cases per 100K**
7-Day average new positive cases per 100K residents

**Adjusted case rate for tier assignment**
An adjustment factor for counties that are testing above or below the state average. This adjusted rate is used for “new case” metric rather than the raw case rate.

**Positivity Rate**
7-day average of positive lab-confirmed COVID-19 cases divided by total tests

**Health Equity Metric**
The test positivity rate in the Lowest Healthy Places Index Quartile Census Tracts.

Key Takeaways:
• As of May 20, there are open/active outbreaks at 6 non-residential locations in Los Angeles with at least three cases for a total of 746 confirmed cases. Last week there were outbreaks at 4 locations for a total of 729 cases.

95% of cases are from the Northrop Grumman outbreak investigation, which spans back several months.

• Two new outbreaks have been identified:
  
  **New Century Plaza - Construction Site - Los Angeles**
  11 confirmed cases

  **Lexus of Beverly Hills, Jim Falk**
  6 confirmed cases

---

**COMPLETE LIST OF OUTBREAKS**

Source: Los Angeles County Department of Health

*Note: This list includes LA County non-residential settings that meet the criteria of (1) five or more laboratory-confirmed COVID-19 cases or symptomatic persons with at least one laboratory-confirmed COVID-19 case at a worksite, or (2) three or more laboratory-confirmed COVID-19 cases or symptomatic persons with at least one laboratory-confirmed COVID-19 case at a setting with vulnerable clients. As of March 24, outbreaks that have met criteria for closure (no new cases identified for at least two weeks) but are pending final documentation have been removed from our active outbreak listings.*

COVID-19 • CITY OF LOS ANGELES

Actions This Month
### ACTIONS THIS MONTH

**City of Los Angeles**

#### 2nd May
Mayor Garcetti announced that City-run sites are prepared to administer over 260,000 vaccine doses this week, the largest supply ever offered by the City. To make vaccinations more accessible and convenient for Angelenos, the City will expand operations from five to six days this week, offer more appointment-free options, add a drive-through at Cal State L.A., and open a new night clinic in South L.A.

#### 6th May
The City issued a new Safer L.A. order to reflect Los Angeles County’s move into the State’s “minimal risk” (yellow) tier.

#### 7th May
The City’s Mobile Outreach for Vaccine Equity (MOVE) program surpassed 100,000 doses administered across Los Angeles this week, reaching a major milestone in the effort to deliver life-saving vaccines directly to hard-hit communities.

#### 14th May
COVID-19 vaccines are now available to all L.A. County residents ages 12 years and older at all City-run vaccination sites.

#### 17th May
Mayor Garcetti announced a series of steps to expand vaccine access among Angelenos. Efforts include extending hours to 8pm at nine fixed City-run sites; administering all three approved vaccines at mass vaccination centers; and offering doses appointment-free across Los Angeles.
