What Statewide Vaccine Equity Goals mean

Every county in California is assigned to a tier based on its positivity rate, adjusted case rate, health equity metric, and the State’s vaccine equity metric. Counties must remain in a tier for at least three weeks before moving to a less restrictive tier. Counties must meet the next tier’s criteria for two consecutive weeks to move to a less restrictive tier. If a county’s metrics worsen for two consecutive weeks, it will be assigned a more restrictive tier.

In accordance with the State’s updated Blueprint for a Safer Economy framework, Los Angeles County qualified for the “Minimal,” or yellow tier on May 4, 2021. The tier’s permitted openings and modifications are in effect as of May 6, 2021.

In the table (right) you will see the breakdown of the following:

**New COVID-19 positive cases per 100K**
7-Day average new positive cases per 100K residents

**Adjusted case rate for tier assignment**
An adjustment factor for counties that are testing above or below the state average. This adjusted rate is used for “new case” metric rather than the raw case rate.

**Positivity Rate**
7-day average of positive lab-confirmed COVID-19 cases divided by total tests

**Health Equity Metric**
The test positivity rate in the Lowest Healthy Places Index Quartile Census Tracts.

COVID-19 DATA SUMMARY
United States Updates
Cases have begun to gradually decrease again. The top five states with the highest numbers of total cases are:

**California**: 3.8M cases (9,488.0 per 100K)  
62.2K deaths (157.1 per 100K)

**Texas**: 2.9M cases (10,135.5 per 100K)  
50.5K deaths (176.0 per 100K)

**Florida**: 2.3M cases (10,603.3 per 100K)  
35.5K deaths (166.9 per 100K)

**New York**: 2.1M cases (10,564.5 per 100K)  
52.6K deaths (269.0 per 100K)

**Illinois**: 1.3M cases (10,580.5 per 100K)  
24.5K deaths (192.2 per 100K)

Pennsylvania, Georgia, Ohio, New Jersey, and North Carolina follow to comprise the 10 states reporting the highest numbers of total cases.

**California ranks ...**

#1 in Cumulative Cases  
#36 in Cases per 100K  
#1 in Cumulative Deaths  
#30 in Deaths per 100K

Cases have begun to gradually decrease again.
The top five states with the highest numbers of new cases are:

**Florida:** +4.5K cases  
71 additional deaths

**Michigan:** +4.1K cases  
123 additional deaths

**Pennsylvania:** +3.3K cases  
61 additional deaths

**Texas:** +2.7K cases  
56 additional deaths

**New York:** +2.6K cases  
34 additional deaths

California, North Carolina, Illinois, Minnesota, and Colorado follow to comprise the 10 states reporting the highest numbers of new cases.
Top five counties reporting the highest numbers of per capita (per 100K) cases:

**Miami-Dade, Florida: 17,972 cases** per 100K
(488,303 total cases)

**Yuma, Arizona: 17,364 cases** per 100K
(37,123 total cases)

**Minnehaha, South Dakota (Sioux Falls): 16,305 cases** per 100K
(31,490 total cases)

**Whitfield, Georgia: 16,057 cases** per 100K
(16,800 total cases)

**El Paso, Texas: 16,037 cases** per 100K
(134,591 total cases)

**Los Angeles, California: 12,299 cases** per 100K
(1,234,746 total cases)

Los Angeles County ranks #62 out of 584 counties with 100K+ as of May 6, 2021 • One-day lag

Source: Los Angeles County Department of Health, Johns Hopkins University
Prepared by Mayor’s Innovation Team
Top five counties reporting the highest numbers of per capita (per 100K) deaths:

**Navajo, Arizona:** 480.5 deaths per 100K (533 total deaths)

**Bronx, New York:** 457.8 deaths per 100K (6,492 total deaths)

**Queens, New York:** 433.9 deaths per 100K (9,779 total deaths)

**Kings, New York:** 399.4 deaths per 100K (10,223 total deaths)

**Imperial, California:** 397.3 deaths per 100K (720 total deaths)

**Los Angeles, California:** 238.8 deaths per 100K (23,977 total deaths)

Los Angeles County ranks #75 out of 584 counties with 100K+

Key Takeaways:
• As of May 6, there are open/active outbreaks at 7 non-residential locations in Los Angeles with at least three cases for a total of 765 confirmed cases. Last week there were outbreaks at 12 locations for a total of 857 cases.
93% of cases are from the Northrop Grumman outbreak investigation, which spans back several months.

• One new outbreak has been identified:

Buffalo Exchange - Santa Monica
3 confirmed cases

Source: Los Angeles County Department of Health
Note: This list includes LA County non-residential settings that meet the criteria of (1) five or more laboratory-confirmed COVID-19 cases or symptomatic persons with at least one laboratory-confirmed COVID19 case at a worksite, or (2) three or more laboratory-confirmed COVID-19 cases or symptomatic persons with at least one laboratory-confirmed COVID-19 case at a setting with vulnerable clients. As of March 24, outbreaks that have met criteria for closure (no new cases identified for at least two weeks) but are pending final documentation have been removed from our active outbreak listings.

COVID-19 • CITY OF LOS ANGELES

Actions This Month
Mayor Garcetti announced that City-run sites are prepared to administer over 260,000 vaccine doses this week, the largest supply ever offered by the City. To make vaccinations more accessible and convenient for Angelenos, the City will expand operations from five to six days this week, offer more appointment-free options, add a drive-through at Cal State L.A., and open a new night clinic in South L.A.

The City issued a new Safer L.A. order to reflect Los Angeles County’s move into the State’s “minimal risk” (yellow) tier.

The City’s Mobile Outreach for Vaccine Equity (MOVE) program surpassed 100,000 doses administered across Los Angeles this week, reaching a major milestone in the effort to deliver life-saving vaccines directly to hard-hit communities.

All City Actions to date can be found in this spreadsheet.
