# Data Snapshot

# Los Angeles County Key Metrics Trends
As of June 23, 2020

**Key Takeaways:**
The following metrics have seen **undesirable** movement over the past 7 days for which data are available: **New Cases, Unemployment Insurance Claims, Acute Care Bed Capacity, ICU Capacity,** and **New COVID+ Test Rate** (vs last week)

The following metrics have seen **desirable** movement over the past 7 days: **New Deaths, COVID+ Test Rate** (vs baseline)**, New Hospitalizations**, **and Crime**

| METRICS | CURRENT TREND VS LAST WEEK | % CHANGE VS LAST WEEK | CURRENT TREND VS BASELINE | % CHANGE VS BASELINE |
|---|---|---|---|---|
| **New Cases** (7-day avg.) | ↗ | +37.2% | ↗ | +83.1% |
| **New Deaths** (7-day avg.) | ↘ | -13.8% | ↘ | -38.1% |
| **COVID Positive Test Rate** (LA Portal sites) | ↗ | +0.4% COVID+ Test Rate is % Difference w/ last week | ↘ | -2.4% COVID+ Test Rate is % Difference w/ baseline |
| **New Hospitalizations** (7-day avg) | ↘ | -10.4% | ↘ | -63.0% |
| **Acute Care Bed Capacity** (7-day avg) | ↘ | -10.2% | ↘ | -42.5% |
| **ICU Bed Capacity** (7-day avg) | ↘ | -11.4% | ↘ | -45.0% |
| **Crime** (7-day avg)* baseline = 2019 YTD | ↘ | -0.9% | ↘ | -21.2% |
| **Unemployment Ins. Claims** baseline = equivalent 2019 week | ↗ | +5.1% | ↗ | +988% |

*Unless otherwise noted, the baseline period is the week of 4/18/20-4/24/20, our highest week in the month of April, first full month of reporting on record
Crime is based on 7-day average comparisons between time periods for 3 days prior to the current date. UI claims lag by approximately one week

# Detailed Data Report

# COVID-19 US Cases and Deaths

As of June 23, 2020 at 2:25PM

**New York still has the most cases but the South is now an epicenter, particularly Florida and Texas. The top five states, based on total cases, include:**

#1: **389.1K** cases in **New York State (+0.6K) - 1990** per 100K
**24.8K** deaths in **New York State (+27) - 126.7** per 100K

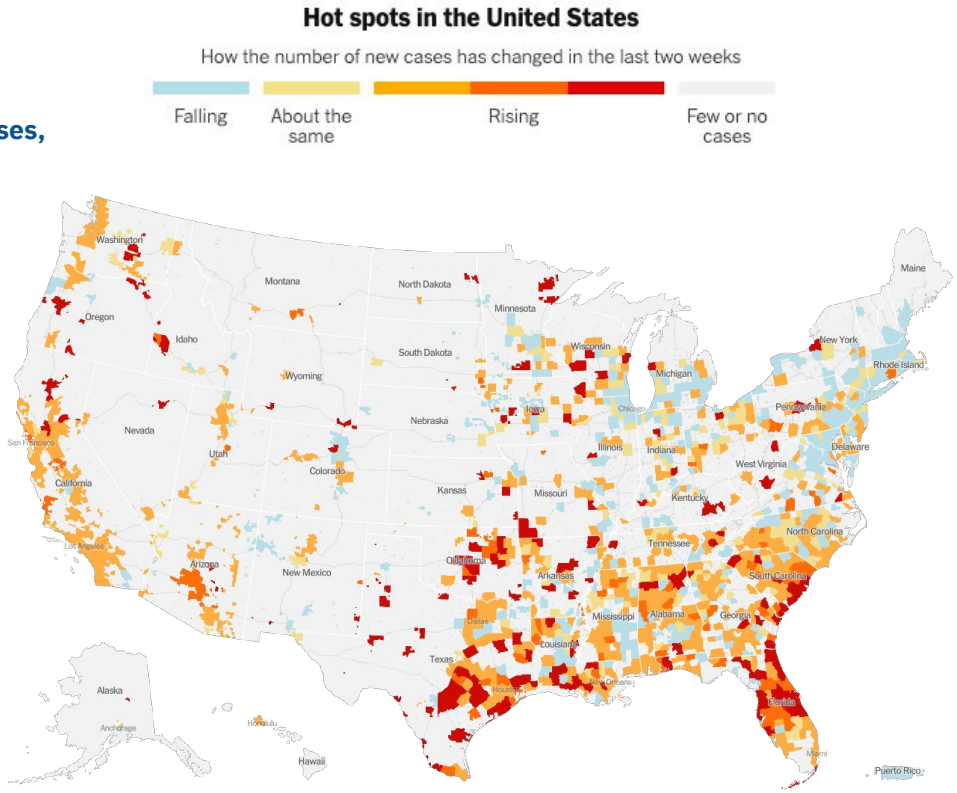
#2: **185.0K** cases in **California (+6.4K) - 468** per 100K
**5.6K** deaths in **California (+65) - 14.1** per 100K

#3: **169.7K** cases in **New Jersey (+0.3K) - 1905** per 100K
**12.9K** deaths in **New Jersey (+54) - 145.4** per 100K

#4: **138.8K** cases in **Illinois (+0.6K) - 1089** per 100K
**6.9K** deaths in **Illinois (+36) - 54.2** per 100K

#5: **120.4K** cases in **Texas (+5.5K) - 419** per 100K
**2.2K** deaths in **Texas (+28) - 7.7** per 100K

Rounding out the top ten are: **Massachusetts, Florida, Pennsylvania, Michigan, and Georgia**



**California ranks ...**
**#2** in Cases
**#31** in Cases per 100K

**#7** in Deaths
**#29** in Deaths per 100K

Source: New York Times, using state and local health agencies, hospitals, CDC data, COVID tracking project, Johns Hopkins University.
Illinois did not report its death totals in time for this publication.

# COVID-19 US Cases - Per Capita County Comparison (Counties >300K ppl)

As of June 22, 2020 (one day reporting lag)

Top 5 per capita (per 100K) cases by County:
**Rockland, New York** (NYC Metro Area): **4148 cases** per 100K
**Westchester, New York** (NYC Metro Area): **3572 cases** per 100K
**Passaic, New Jersey** (NYC Metro Area): **3342 cases** per 100K
**Nassau, New York** (NYC Metro Area): **3059 cases** per 100K
**Union, New Jersey** (NYC Metro Area): **2937 cases** per 100K

**Los Angeles, California: 857 cases** per 100K
(Los Angeles County ranks #68 out of 229 counties with 300K+)

Top 5 per capita (per 100K) deaths by County:
**New York City, New York: 267.7 deaths** per 100K
**Essex, New Jersey** (NYC Metro Area): **220.4 deaths** per 100K
**Rockland, New York** (NYC Metro Area): **204.7 deaths** per 100K
**Union, New Jersey** (NYC Metro Area): **204.6 deaths** per 100K
**Passaic, New Jersey** (NYC Metro Area): **202.3 deaths** per 100K

**Los Angeles, California: 31.2 deaths** per 100K
(Los Angeles County ranks #83 out of 229 counties with 300K+)

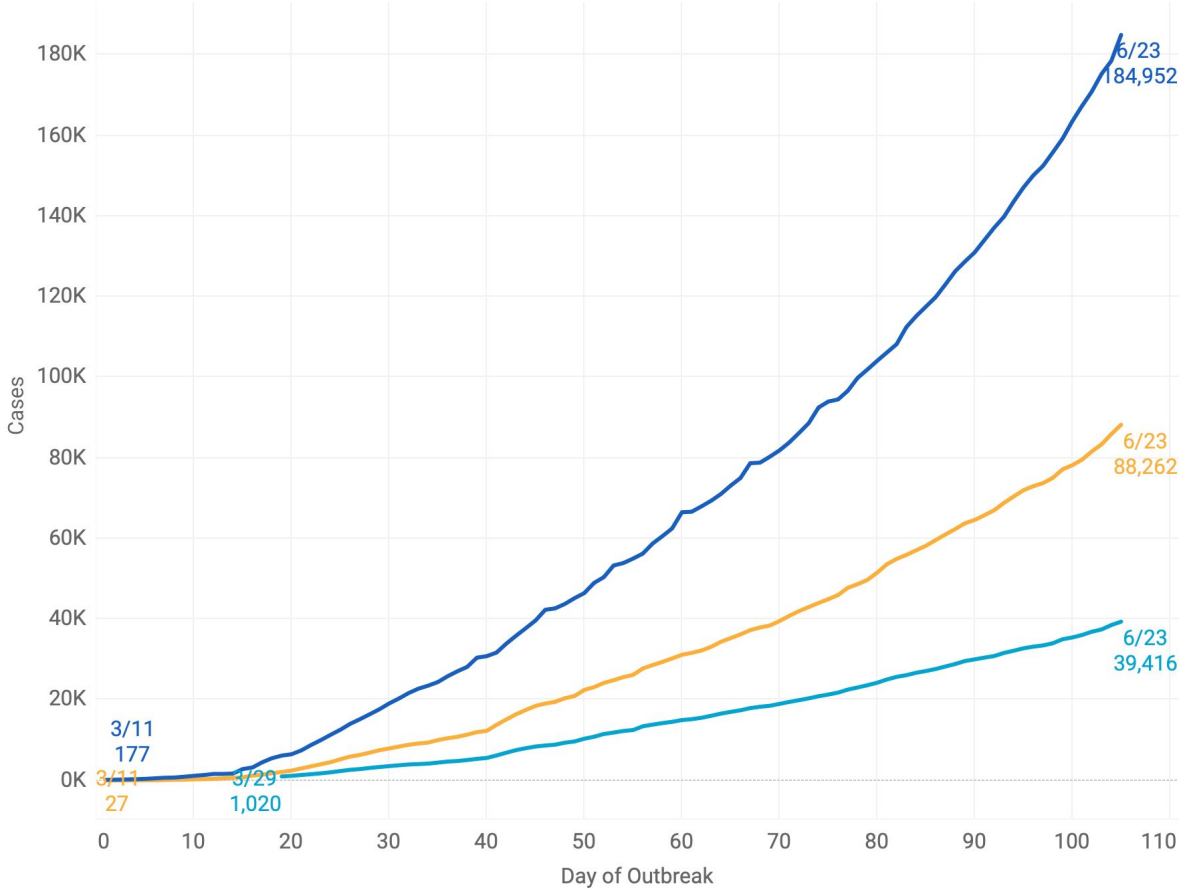
# Cases:
# Los Angeles vs. California
As of June 23, 2020, 12:00 PM

**Key Takeaways:**
- **6,431** new cases reported in CA since yesterday (**3.6%** increase)

- LA County has **47.72%** of cases in CA with **2,364** new cases (**2.7%** increase)

- The City of LA has **21.31%** of cases in CA with **836** new cases (**2.2%** increase)



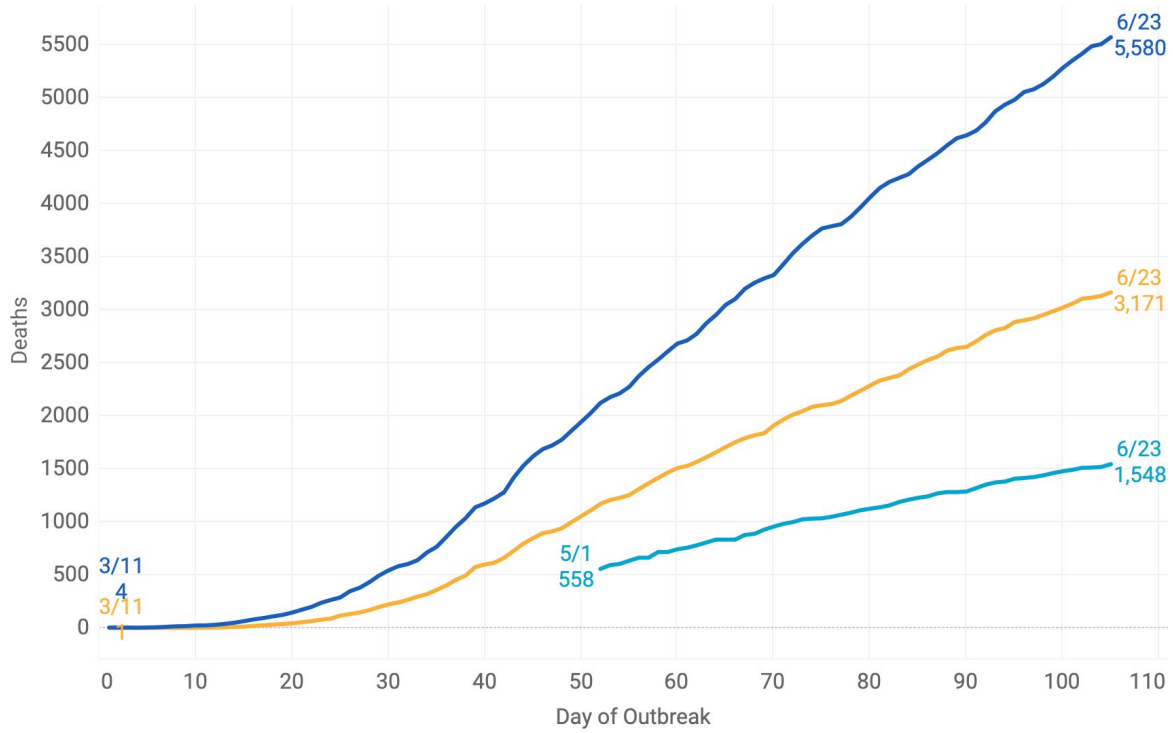
Source: Los Angeles County Department of Public Health, Johns Hopkins Center for Systems Science and Engineering GitHub repo, LA County Department of Public Health, COVIDTracking.com, and the LA Times. Day of outbreak is identified as March 11th, with prior cases aggregated to day 1

# Deaths:
# Los Angeles vs. California
As of June 23, 2020, 1:00 PM

**Key Takeaways:**
- **65** new deaths reported in CA from 6/22 to 6/23 (**1.2%** increase)

- LA County has **56.8%** of deaths in CA with **34** new deaths from 6/22 to 6/23 (**1.1%** increase)

- The City of LA has **27.7%** of deaths in CA; **27** new deaths reported from 6/22 to 6/23 (**1.8%** increase)



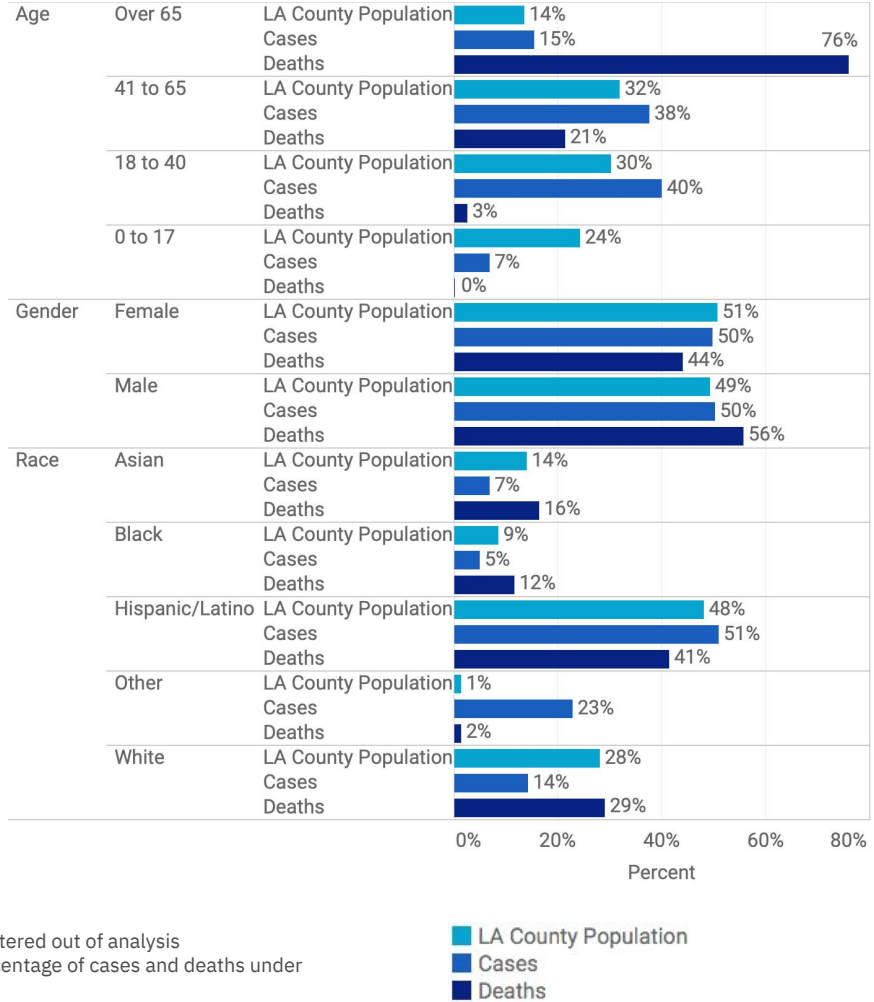
Source: Los Angeles County Department of Public Health, Johns Hopkins Center for Systems Science and Engineering GitHub repo, and the LA Times. Day of outbreak is identified as March 11th, with prior cases aggregated to day 1. LA City death count lags several days.

# COVID Cases and Death Demographics

As of June 21, 2020
(two day lag)

**Key Takeaways:**

- Data is incomplete with 33.2% of cases and 0.4% of deaths still under investigation
- People 18 and above and Hispanic/Latinos are overrepresented in cases
- Seniors, Men, Asian Americans, and African Americans are overrepresented in deaths
- 2,949 out of 3,137 deaths had comorbidities (underlying conditions) (94.0%)



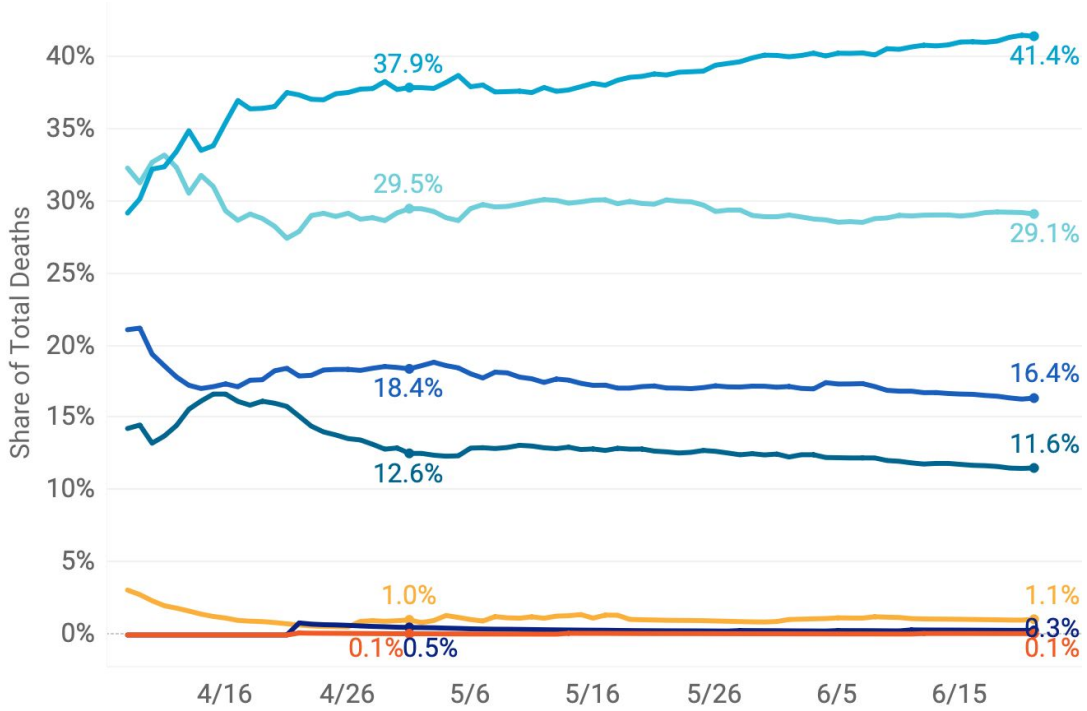
Source: Los Angeles County Department of Public Health, US Census Bureau
*Department of Public Health category *Under Investigation or Not Otherwise Listed* filtered out of analysis
Approximations are made on Census data to accommodate county age buckets. Percentage of cases and deaths under investigation is based on the race category

# Share of LA County Deaths by Race

## As of June 21, 2020 (two day lag)

**Key Takeaways:**
From 5/1 to 6/21

- Hispanic/Latino share **increased by 3.5%**
- White share **decreased by 0.4%**
- Asian share **decreased by 2.0%**
- Black share **decrease by 1.0%**
- Other Races share **increased by 0.1%**
- Native Hawaiian/Pacific Islander share **decreased by 0.2%**
- American Indian/Alaska Native share **remained the same**



Source: Los Angeles County Department of Health

# Cases and Deaths by Age

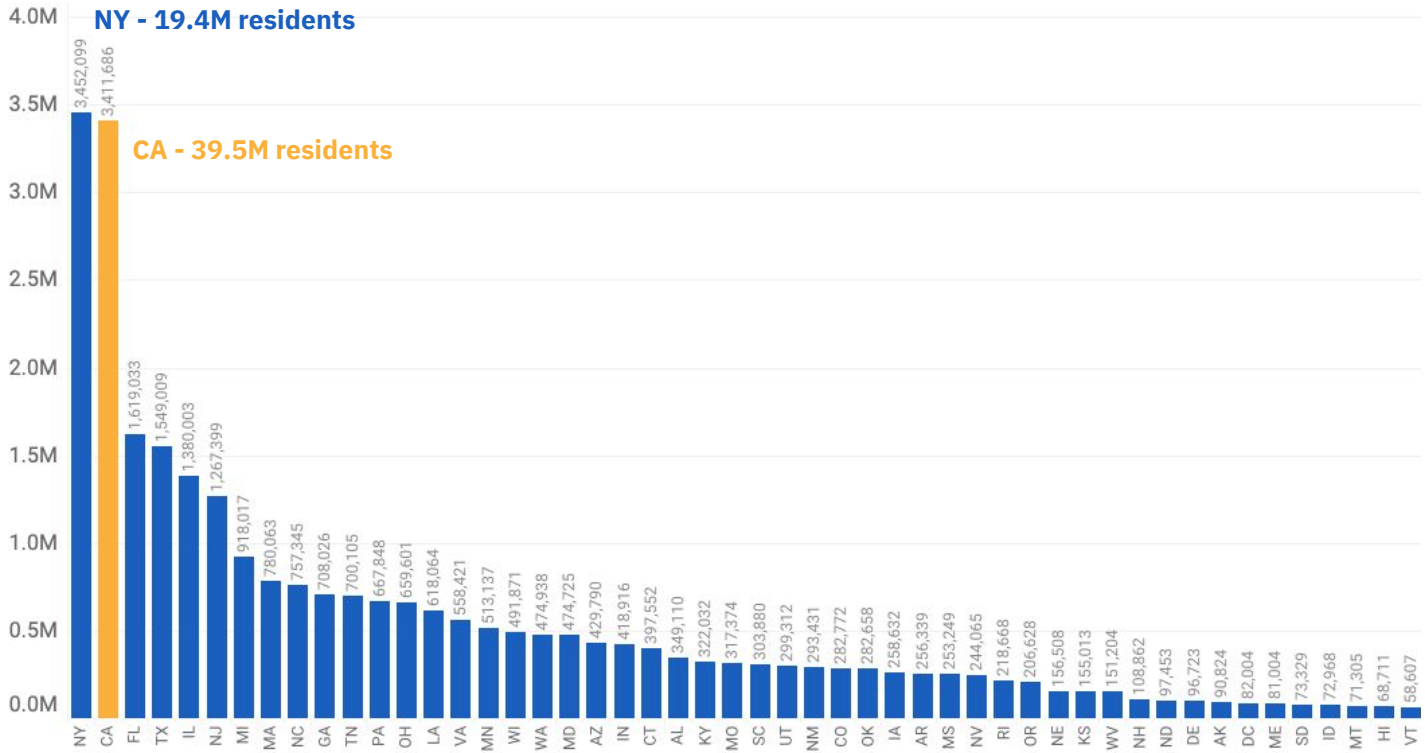
# State Testing Data

As of June 22, 2020
(one day lag)

**Key Takeaways:**

- **3.4M** tests conducted in CA
- **+31%** in total tests in CA between 6/11 and 6/22



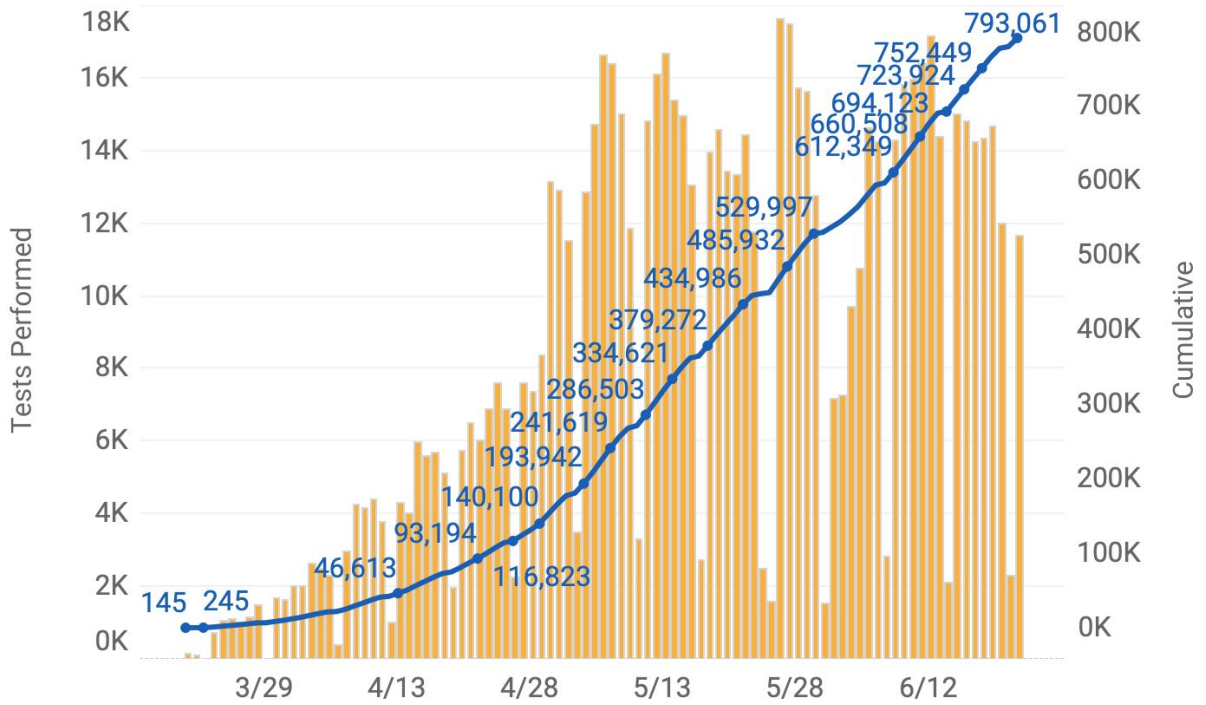
Source: covidtracking.com/
*States are not consistent with updating and reflect a data lag

# City of Los Angeles Tests Performed

As of June 22, 2020
(one day lag)

**Key Takeaways:**

- **At least 793,061 tests** have been performed since 3/20
- **At least 11,640 tests** were performed on 6/22
- **24,627** of the 485,002 results received were positive (5.08%)



Source: City of Los Angeles
*Public test registration. It does not include registration of critical city employees, first responders, and health care providers.

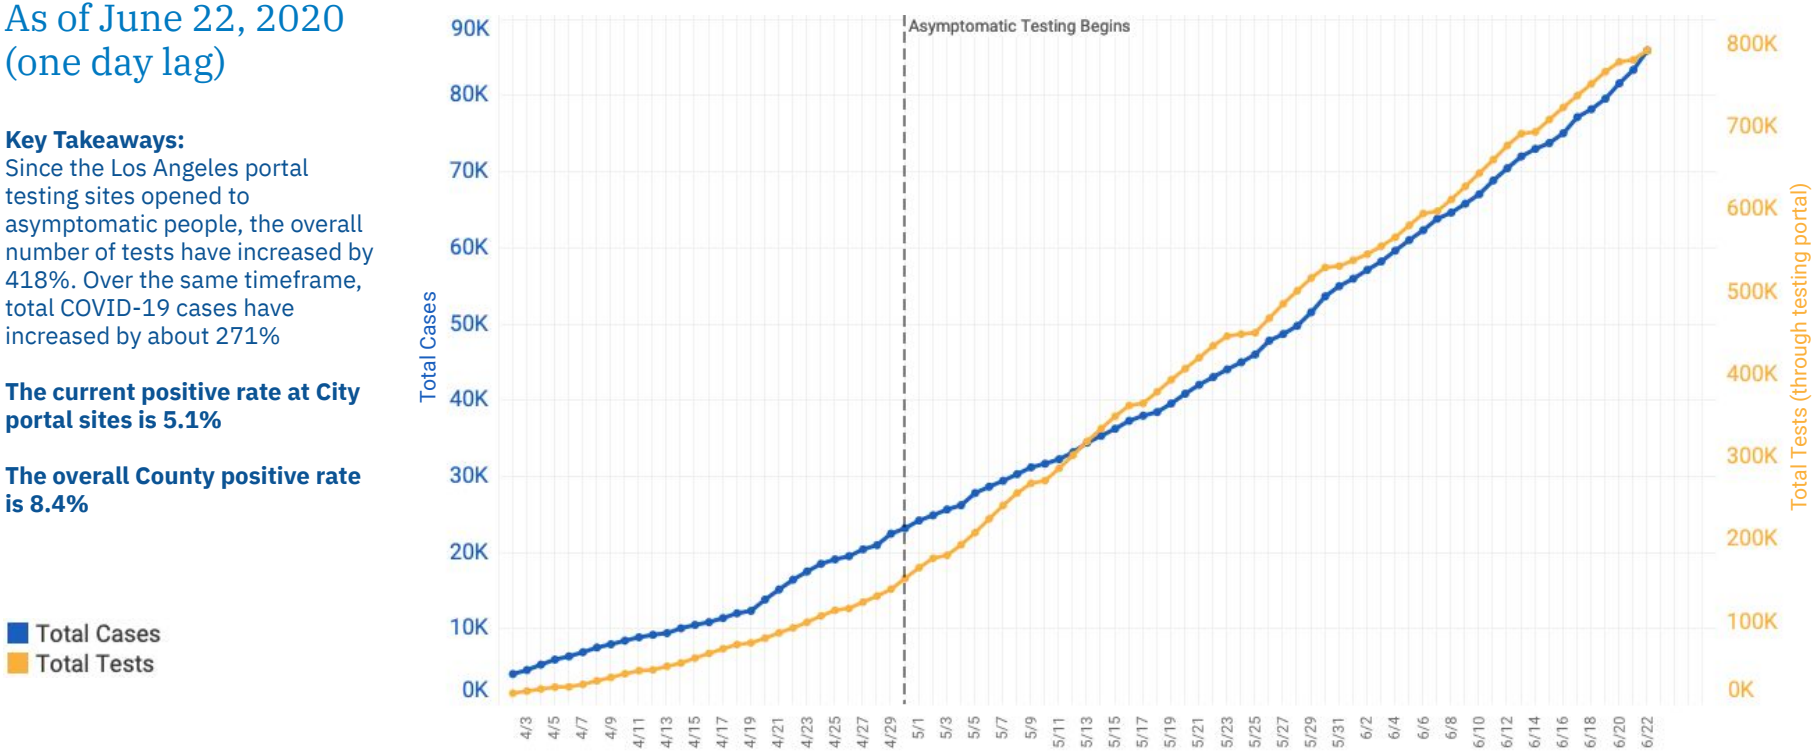
# Los Angeles Portal Testing vs Total LA County Cases

As of June 22, 2020
(one day lag)

**Key Takeaways:**
Since the Los Angeles portal testing sites opened to asymptomatic people, the overall number of tests have increased by 418%. Over the same timeframe, total COVID-19 cases have increased by about 271%

**The current positive rate at City portal sites is 5.1%**

**The overall County positive rate is 8.4%**



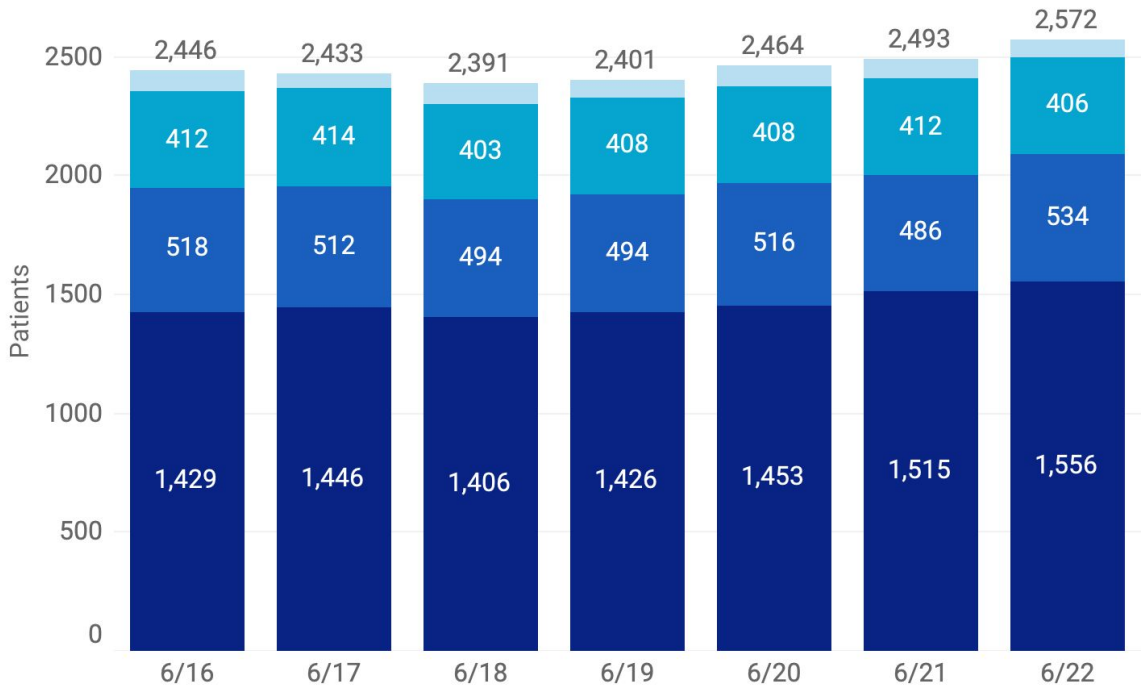
Source: Los Angeles County Department of Health, Los Angeles City

# Hospitalized Patients

As of June 22, 2020
(one day lag)

**Key Takeaways:**
- **2,572** currently hospitalized patients

- Since 6/16, there has been a **5.2% increase** in hospitalized patients



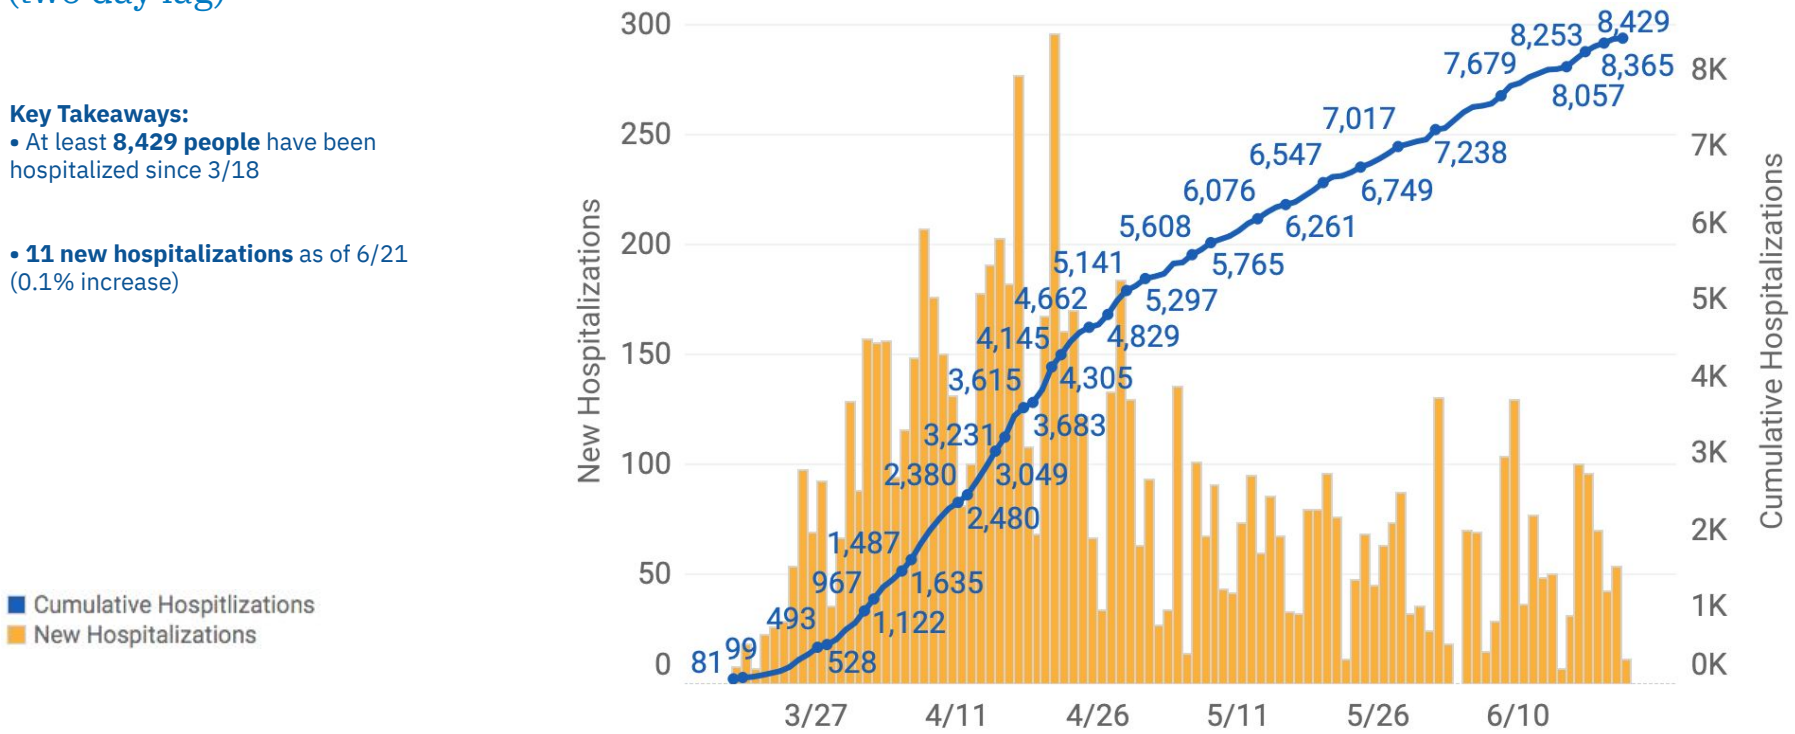
Source: California Health and Human Services

# Hospitalizations

As of June 21, 2020
(two day lag)

**Key Takeaways:**
- At least **8,429 people** have been hospitalized since 3/18

- **11 new hospitalizations** as of 6/21 (0.1% increase)



Source: Los Angeles County Department of Health

# Hospital Bed and Equipment Capacity for LA County

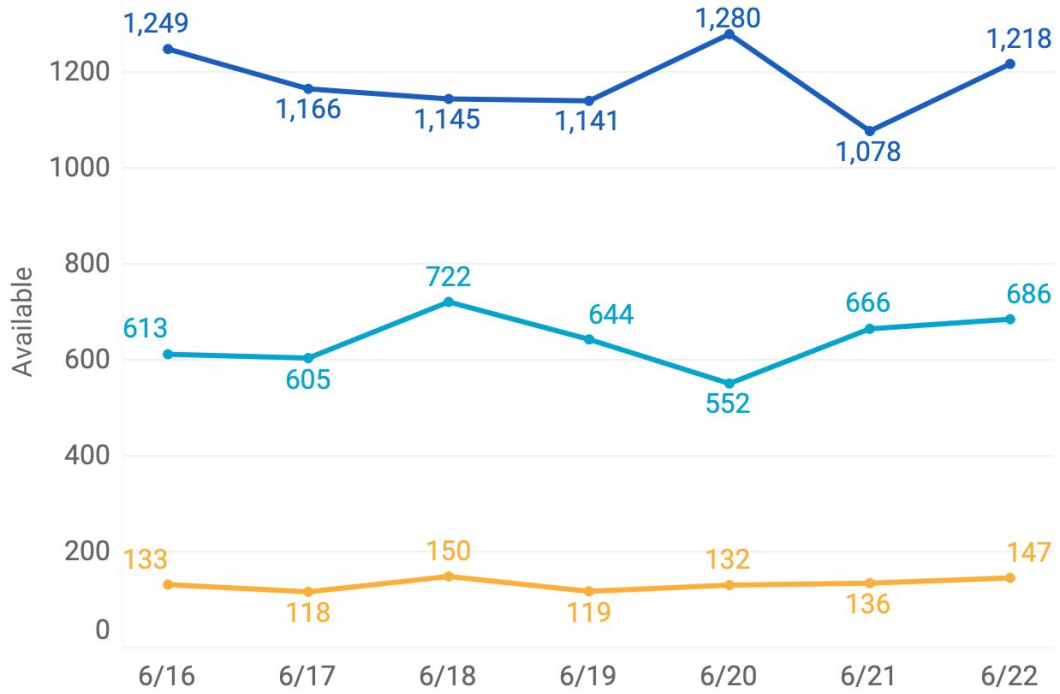
As of June 22, 2020

**Key Takeaways:**
**833 total beds**

Since last week, there has been a:
- **11.9% increase** in available acute care beds. Surge capacity is 11,482

- **10.5% increase** in available ICU beds. Surge capacity is 4,067

- **-2.5% decrease** in available ventilators. Surge capacity is 3,199



*County Total Reported Bed Capacity in County: 23,318 Staffed Beds in all Categories*
*(ICU, Rehab, Unspecified Acute, Coronary Care, NICU, Perinatal, Pediatric, Psych, Skilled Nursing)*

# Sentiment Analysis

# Zencity Daily Coronavirus Overview for 6/22 - 6/23

*Social media discourse has continued to decrease, with the Coronavirus making up **23.8% of the overall discourse with 82.6K interactions** over the past two days. The recent protests and the LAPD budget remain present in the Coronavirus discourse.*

## Top Coronavirus Topics

***Supplies***

- 25.7K interactions
- 7.4% of discourse
- 19% negative / 4% positive

***Face Covering & Masks***

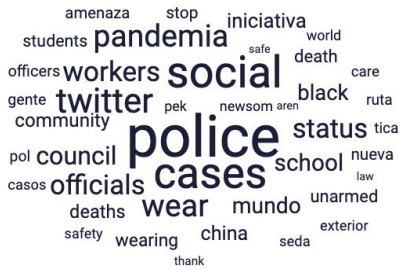
- 21.5K interactions
- 6.2% of discourse
- 12% negative / 4% positive

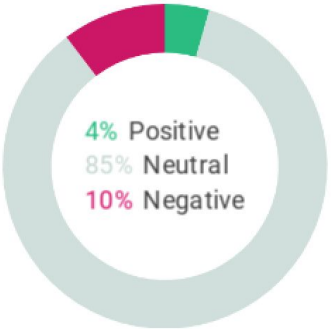
***Social Distancing***

- 19.4K interactions
- 5.6% of discourse
- 9% negative / 3% positive

***Education***

- 15.7K interactions
- 4.54% of discourse
- 14% negative / 4% positive





# Zencity Coronavirus Sentiment Analysis for 6/22 - 6/23

*Social media discourse is reduced, but holding steady, with **340K interactions** over the past two days. The Coronavirus discourse generated **82.6K interactions, making up 23.8% of the overall engagement.***

### *Popular "positive" posts*

This is our new "normal", and I applaud Garcetti and his team taking these measures for our travel safety, when possible

Good job, mayor. This is basic stuff. Glad we're doing it.

Big love for supporting partnership with @MayorOfLA + to get Covid relief cash into the hands of those who need it most *regardless* of immigration status. Ten more cities (incl ATL + OKC) coming soon.

Mayor Garcetti you have done ✔️ so much for Angelenos ❤️❤️ to keep us Safe ! 👊🏽👊🏽👊🏽

### *Popular "negative" posts*

Wow! The disrespect shown on the comments for this health official is just incredible. I am embarrassed for you all. Her job is to save lives even those that clearly are undeserving. They are working hard under very hard conditions. If you can do better then step up instead of spewing nonsense! Our health shouldn't be something to politicize or play with!

Death threats over masks?! Those "people" are severely ignorant or severely sick in their heads. Unfortunately, they are probably both. Everyone wants to claim their first amendment rights when it benefits them but GOD FORBID anyone with a different opinion be able to exercise their rights. I'm praying for all of them. "You shall not murder."

So what?? And thousands and thousands and thousands survive!! Get over it! Over a what 95% survival rate but the media is trying to scare the hell out of everyone! 🙄
Pathetic

### *Popular "neutral" posts*

Why don't you just tell the truth this Covid thing isn't what you guys said it was I was at the doctor and they said a lot of these cases are just the flu and you guys keep saying it's COVID-19 and that these masks aren't helping us at all so you guys need to tell us the truth Are some of these classes just the flu or COVID-19 get it together

Just stop the Fear Mongering!!!!! More tests and more people surviving but you won't report that because it's a positive thing

1. 35-40% of cases are asymptomatic, so in many cases a common cold is more severe
2. Over 50% of the symptomatic deaths in LA county have been in nursing homes. Similar findings in other states.
3. People under 50 years of age have a 0.05% fatality rate meanwhile the flu is 0.1%
Aggregate all that and I think it's safe to say the fear is irrational. If you feel safe in quarantine then stay there, but stop moaning about it.
